WORK EXPERIENCE

Software Engineer

Cavago Pte. Ltd

09/2023 - 01/2023

Remote

Internship

Achievements/Tasks

- I played a pivotal role in developing and maintaining Laravel applications, including API documentation using L5 Swagger, database migrations, and frontend/backend contributions. I conducted thorough API testing with Postman, utilized Ajax and JavaScript for frontend testing, and implemented JWT token authentication for enhanced security. This experience honed my proficiency in remote work, effective communication, and problem-solving.

CERTIFICATES

PHP for Beginners 2023: The Complete PHP MySQL PDO Course (06/2023 - 07/2023)

Certificate no: UC-a9c45182-584c-4557-acb0-410bae28fad9

The Ultimate MySQL Crash Course 2023 (11/2023 - 12/2023)

Certificate no: UC-50b3438c-fa97-4421-ad46-0255cbb14521

React JS- Complete Guide for Frontend Web Development (05/2023 - 06/2023)

Certificate no: UC-94ec9d4b-487a-4eb0-aac4-b42712993563

PERSONAL PROJECTS

IMDb clone on React (03/2023 - 05/2023)

- Developed a responsive IMDb clone using React.js and integrated The Movie DB (TMDB) API for real-time movie details. Implemented user-friendly features, including efficient search, detailed movie pages, and user authentication for account customization.
- <https://thayoob.github.io/imdb/>

Personal Portfolio (08/2022 - 09/2022)

- Developed a responsive personal portfolio website using HTML, CSS, JavaScript, and Bootstrap. Features include a navigation bar, about section, skill showcase, contact form, social media links, and copyright footer.
